Recent graduate with a B.S. in Information Management and Technologies and a specialization in front-end web development. Create my website with a user-friendly interface without compromising accessibility. Skilled in React, Python, and WordPress.

Education

B.S. Information Management & Technology

Syracuse University
Web Design and Management Track

Aug 2018 - May 2021

Projects

Creator

lwdSite

Oct 2021 - Current

- Rewrite the site using modern web technology like GatsbyJS (Front-end), Strapi (Back-end), and TailwindCSS.
- Design the site with refresh UI elements and color scheme.
- Compose in-depth documentation for the project on GitHub.
- Implemented the site on my Debian server with Nginx.

Work Experience

Undergraduate Teaching Assistant

iSchool at Syracuse University

Sep 2019 - Dec 2019

- Prepared and evaluated weekly lab sessions to keep teaching materials up to date.
- Assisted 100+ students to use software and technologies in the lab. Include Linux command line, Wireshark, VMWare Vsphere, and more.
- Used intuitive ways to help students understand concepts in the course.
- Composed step-by-step instructions to guide students to complete the lab.
